Ask about this product

Manufacturer	Siemens
Catalog number	6es7222-1ef00-0xa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.24 kgs
Voltage	24 - 264 V
Measurement Range	24 - 264
Product Type	Module
I/O Channels	21 channels
Signal Type	264
I/O Configuration	21
Current	1 A
Industrial System	s7-200
Signal Level	264 V
Relay Specifications	1 A

Description

The Siemens 6ES7222-1EF00-0XA0 is a digital output module designed for the SIMATIC S7-200 series PLCs. This EM 222 module features eight optically isolated digital outputs, each capable of handling a voltage range from 24 to 264 V AC and a maximum current of 1 A per channel. It is exclusively compatible with S7-21x CPUs, ensuring seamless integration within Siemens automation systems. The module's optically isolated outputs provide enhanced protection against electrical interference and signal integrity issues, making it suitable for industrial environments where reliability is paramount. Please note that the terminal block (6ES7290-0AA00-0XA0) is not included and must be purchased separately. This module is ideal for applications requiring robust and flexible digital
