Manufacturer	Siemens
Catalog number	6es5451-5aa12
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.15 kgs
Product Type	Module
Industrial Safety	plc
Signal Type	24
Safety Level	plc
Voltage	24 V
Current	0.5 A
Signal Level	24 V

Description

The Siemens 6ES5451-5AA12 is a digital output module designed for the SIMATIC S5-130/150 PLC systems. This module features 16 digital outputs, each operating at 24 VDC with a current rating of 0.5 A per output. Engineered for reliable and efficient performance in industrial automation settings, it ensures consistent digital signal processing and output. The module's floating design enhances its operational robustness, making it suitable for diverse and demanding applications. Despite its discontinuation, the 6ES5451-5AA12 remains repairable, offering a cost-effective alternative to complete replacement. Users can extend the usability of their existing PLC systems and maintain operational efficiency by opting for repairs. Comprehensive repair services are available, ensuring that these modules remain functional long after their phase-out, supporting industrial automation continuity.
