Description

The Siemens 6DS1403-8CB is a Closed Loop Control Module from the Teleperm M series, designed for precise process automation in industrial settings. This module features two PI (Proportional-Integral) closed-loop controllers, each with two channels, enabling accurate and stable regulation of production processes. Its robust construction and Siemens' engineering excellence ensure reliable performance in demanding applications. The modular design allows seamless integration into existing control architectures, facilitating efficient maintenance and upgrades. With dimensions of 26.2 cm x 20.8 cm x 4.5 cm and a weight of approximately 0.51 kg, the 6DS1403-8CB is suitable for various industrial automation tasks requiring precise control and regulation.
