Ask about this product

Manufacturer	Siemens
Catalog number	6se9113-4ba53
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.79 kgs
Product Type	Drive
Signal Level	230 V
Relay Specifications	230 VAC
Voltage	230 V
Power	0.75 kW
Horsepower	1 hp
Cooling Capacity	0.75 kW
Signal Type	230

Description

The Siemens 6SE9113-4BA53 is a MICROMASTER Junior Series frequency inverter designed for precise speed control of three-phase asynchronous motors in industrial applications. This compact inverter offers a power output of 0.75 kW (1 HP) and operates at a supply voltage of 230 V AC. It features a Class A filter, ensuring compliance with electromagnetic compatibility standards. The device supports an input frequency range of 47-63 Hz and an output frequency range of 0-200 Hz, providing flexibility for various motor control needs. With dimensions of 136 x 128 x 69 mm and a weight of approximately 0.79 kg, it is suitable for integration into existing automation systems. The 6SE9113-4BA53 is ideal for applications such as conveyors, assembly lines, process pumps, fans, and mixers, where reliable and efficient motor speed control is essential.
