Manufacturer	Siemens
Catalog number	6es5350-3ka21
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.20 kgs
Manufacturer	Siemens
Product Type	Module
Weight	0.30 kg
Dimensions	200 x 30 x 250 mm
Memory Capacity	8 KB
Number of Slots	2 slots
Power Consumption	130 W

Description

The Siemens 6ES5350-3KA21 is a memory module designed for the SIMATIC S5 series programmable logic controllers (PLCs). This module features 8 kilobytes (KB) of RAM and includes two slots for memory submodules, providing flexibility for memory expansion. It operates with a power consumption of 130 watts, ensuring efficient performance within industrial automation systems. The module's compact design allows for easy integration into existing PLC configurations, making it suitable for applications requiring reliable and scalable memory solutions. Its robust construction and compatibility with the SIMATIC S5 series make it a valuable component for enhancing the functionality and longevity of automation systems.
