Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.47 kgs
Product Type	Interface Module
Product Family	SIMATIC S5
Application Area	Industrial Automation
Discontinued Date	October 1, 2005
Repairable	Yes

Description

The Siemens 6ES5312-5CA21 is an interface module designed for the SIMATIC S5 series, facilitating centralized configurations up to 200 meters. It enables connections between expansion units and central controllers or other expansion units without requiring a power supply, making it suitable for various industrial automation tasks. The module features a compact design with an optional 1.5-meter location cable, optimizing placement and integration within existing systems. Despite being discontinued as of October 1, 2005, the 6ES5312-5CA21 remains repairable, offering a cost-effective solution for maintaining operational systems.
