Manufacturer	Siemens
Catalog number	6es5454-7lb11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.91 kgs
Current	2 A
Product Type	Module
Voltage	24 V
Signal Type	24
Signal Level	24 V

Description

The Siemens 6ES5454-7LB11 is a digital output module from the SIMATIC S5 series, designed for integration with S5-115U/F PLC systems. This module features eight isolated outputs, each capable of handling 24 V DC at up to 2 A, ensuring reliable performance in various industrial automation applications. Manufactured in Germany, it reflects Siemens' commitment to quality and precision in automation technology. Despite its discontinued status as of October 1, 2022, the 6ES5454-7LB11 remains a valuable component for existing systems. Its repairable design offers a cost-effective solution for extending the module's operational life, making it a practical choice for businesses seeking to maintain their automation infrastructure without the need for complete system overhauls.
