Description

The Siemens 6ES5-465-7LA12 is an analog input module designed for the SIMATIC S5-115U PLC system. This module features 16 non-isolated analog inputs, making it suitable for applications requiring precise analog signal processing. To ensure optimal performance, a measuring range module is required. The module is housed in a compact enclosure with dimensions of 195 mm in height, 310 mm in length, and 42 mm in width, and has a weight of 0.76 kg. As of October 1, 2005, this product has been discontinued, but it remains repairable, offering a cost-effective solution for extending the usability of existing systems.
