Product Type	Interface Module
Dimensions	200 mm x 245 mm x 25 mm
Weight	0.28 kg
Discontinued Date	October 1, 1999
Manufacturer	Siemens
Part Number	6ES5310-5AA12
Category	Podzespoły automatyki przemysłowej

Description

The Siemens 6ES5310-5AA12 is a compact interface module designed for the SIMATIC S5 series, facilitating distributed configurations up to 1000 meters. It enables seamless connectivity between expansion units and a central controller, ensuring efficient communication within automated systems. Despite being discontinued as of October 1, 1999, this module remains vital for various legacy systems due to its repairable nature, extending its usability and ensuring continued operation in existing setups. Opting for repair over replacement can be a practical choice, considering the cost and effort involved in system upgrades or overhauls.
