Manufacturer	Siemens
Catalog number	6es5374-2fj21
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.02 kgs
Memory Capacity	512 kB bytes
Memory Type	Flash EPROM
Product Type	Memory Card
Compatibility	SIMATIC S5 Series PLCs
Manufacturer	Siemens

Description

The Siemens 6ES5374-2FJ21 is a long-type flash EPROM memory card designed for the SIMATIC S5 series programmable logic controllers (PLCs). This 512 kB (16-bit) memory module is essential for storing and retrieving program data within the PLC system, ensuring reliable and efficient operation in industrial automation applications. Manufactured by Siemens, a leading provider of industrial automation solutions, this memory card is engineered to meet high standards of performance and durability. Its compatibility with the SIMATIC S5 series makes it a valuable component for maintaining and upgrading existing automation systems. Whether used in new installations or as a replacement part, the 6ES5374-2FJ21 memory card contributes to the seamless functioning of complex industrial processes.
