Manufacturer	Siemens
Catalog number	6es7214-1bd21-0xb0
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.15 kgs
Voltage	AC
Interface Type	profibus
Industrial Safety	plc
Safety Level	plc
Memory/Storage	8 KB
Product Type	Relay
Industrial System	s7-200

Description

The Siemens 6ES7214-1BD21-0XB0 is a compact Programmable Logic Controller (PLC) from the SIMATIC S7-200 series, designed for reliable control in industrial automation applications. This CPU 224 unit features an AC power supply, 14 digital inputs (DC), and 10 digital outputs with relay functionality. It offers 8 KB of program memory and 5 KB of data memory, providing substantial capacity for various automation tasks. The PLC is extendable via PROFIBUS DP, allowing integration into more complex network systems as required. Please note that this model was discontinued on October 1, 2014, but remains repairable, extending its usability in existing systems.
