Product Description

Product Description

Honeywell CC-PCF901 PLC Control Firewall Module

Technical Application

Honeywell's C300 Controller provides powerful and robust process control for the Experion platform. The C300 is part of the product family that operates Honeywell's field-proven and deterministic Control Execution Environment (CEE) software.
The Experion PKS C300 controller forms the heart of the Experion control system, and is ideal for implementation across all industries, with best-in-class process control capabilities and security. It supports a wide variety of process control applications, including continuous and batch processes, and integration with smart field devices. The C300 controller also supports advanced process control, as well as custom algorithm blocks that let users create custom code to run in the C300 controller.
