Our Advantages

HIGH QUALITY

All parts 12-month warranty.

SUPERIOR SERVICE

24-hour online service and prompt reply.

PROFESSIONAL

Established for 20 years, with a team of 100 professional sales members and 30 skilled technical workers.

QUICK DELIVERY

Samples can be quickly produced and goods delivered according to customer requirements.

Packing & Delivery

The product is packaged well. To protect parts, we usually use foam board 3cm thick to fill in all around the box inside.

Methods of Payment and Shipment

If you want to buy the product from us, it's of good quality. OK. I'll tell you how to pay for it.

We accept all the Payment methods and Express, but we usually adopt the following methods

Paypal / TT. Express UPS / DHL.

FAQ

Q: What is your main line of business?

We sell and repair Fanuc, Mitsubishi, and Siemens products in China and provide other CNC spare parts.

Q: Where is your company? How do I get there?

Our headquarters is located in Shanghai City; the environment is elegant, and the equipment is professional.

Q: Do you have the test equipment? How long is the delivery time?

We have complete testing equipment, and all parts are tested 100% before they leave the factory. Most of the parts are in stock, so the delivery time is usually 1-2 days.

The warranty period for used parts is 3 months, and for new parts, it is 1 year. If you receive the part but it does not work properly, you can return it to us within 7 days.

Q: How about the packing when they are sent out?

We usually use foam paper to fill all the areas inside the box to protect the parts. We often pack the parts in cardboard boxes, but if the parts are too heavy, we make wooden boxes for them.

Q: What deliveries are available?

UPS, DHL, FedEx, TNT, and EMS are available.

Get the best price

Once we receive your request, we will respond within 1-2 hours.
