Ask about this product

Manufacturer	Siemens
Catalog number	6es5434-4ua11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.41 kgs
Product Type	Digital Input Module
Number of Inputs	32 inputs
Input Voltage	5V/15V DC
Dimensions	26.30 cm x 3.40 cm x 21 cm
Weight	0.41 kg

Description

The Siemens 6ES5434-4UA11 is a digital input module from the SIMATIC S5 series, designed for industrial automation systems. This module features 32 floating digital inputs, compatible with 5V and 15V DC signals, facilitating versatile integration into various control systems. Its compact design ensures efficient use of space within control panels. The module is part of the SIMATIC S5-135U/155U/F series, known for their reliability and performance in industrial applications. Despite its discontinued status since October 1, 1999, the 6ES5434-4UA11 remains a valuable component for legacy systems, offering a sustainable option for maintenance and repair. Utilizing this module can extend the operational life of existing equipment, maintaining system functionality without the need for costly upgrades or replacements. For those seeking to repair or refurbish this module, services are available to ensure continued performance and reliability.
