Ask about this product

Manufacturer	Siemens
Catalog number	6es5788-7lc11
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.25 kgs
Product Type	Simulation Module
Product Family	SIMATIC S5
Compatibility	S5-115U PLC
Application Area	Industrial Automation
Dimensions	10.0 in x 2.0 in x 8.0 in inches
Weight	0.3 kg

Description

The Siemens 6ES5788-7LC11 is a simulation module designed for the SIMATIC S5-115U programmable logic controller (PLC). This module enables the simulation of timer and counter values, facilitating testing and troubleshooting within automation systems. It is part of the Siemens SIMATIC S5 series, known for its reliability and performance in industrial automation applications. The 6ES5788-7LC11 is compatible with the S5-115U PLC, offering seamless integration for enhanced system functionality. Key features include its compact design and robust construction, ensuring durability in various industrial environments. This module is ideal for applications requiring precise simulation of timer and counter operations, contributing to efficient system development and maintenance.
