Manufacturer	Siemens
Catalog number	6es7145-1fb31-0xb0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.11 kgs
Product Type	Expansion Module
Product Family	SIMATIC DP
Application Area	Industrial Automation
Interface Type	2/4-wire connection
Enclosure Rating	IP66/67

Description

The Siemens 6ES7145-1FB31-0XB0 is an expansion module designed for the SIMATIC DP system, specifically tailored for integration with the ET 200X series. This module offers two analog outputs with a voltage range of ±10 V and a resolution of 11 bits plus sign, ensuring precise signal transmission. It features diagnostics via channels with 2/4-wire connections, enhancing system reliability and ease of maintenance. The module is housed in an IP66/67-rated enclosure, providing robust protection against dust and water ingress, making it suitable for demanding industrial environments. With a compact design and straightforward installation, the 6ES7145-1FB31-0XB0 seamlessly integrates into existing automation setups, offering scalability and flexibility for various applications.
