Manufacturer	Siemens
Catalog number	6es5482-7lf11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.20 kgs
Current	0.5 - 4 A
Product Type	Module
Signal Type	24
Signal Level	24 V

Description

The Siemens 6ES5482-7LF11 is a digital input/output module designed for the SIMATIC S5-115F PLC system. It features 16 isolated inputs and 16 outputs, each operating at 24 V DC with a current rating of 0.5 A. This module is engineered for positive switching, ensuring reliable performance in industrial automation applications. Manufactured in Germany, it adheres to high-quality standards, making it a dependable component for various automation tasks. Please note that this product has been discontinued as of October 1, 2022, but remains repairable, offering an extended operational lifespan for existing systems.
