Ask about this product

Manufacturer	Siemens
Catalog number	6av3607-1jc30-0ax2
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Display Type	LC with LED backlighting
Display Lines	4 lines
Characters per Line	20 characters
Supported Systems	SIMATIC S5, 505, S7, M7
Communication Protocol	PROFIBUS DP at 12 Mbaud
Dimensions	15.4 x 18.7 x 5.6 cm
Weight	0.503 kg

Description

The Siemens 6AV3607-1JC30-0AX2 is an operator panel from the SIMATIC HMI series, designed for efficient and reliable control in industrial automation environments. This panel features a clear LC display with LED backlighting, offering four lines with 20 characters per line, ensuring optimal visibility for operators. It supports native drivers for SIMATIC S5, 505, S7, and M7 systems, making it a versatile solution for integration into existing production setups. The 6AV3607-1JC30-0AX2 supports PROFIBUS DP at 12 Mbaud and holds UL/CSA approval, meeting stringent safety and connectivity standards. Its compact dimensions of 15.4 x 18.7 x 5.6 cm and lightweight design (0.503 kg) make it suitable for various industrial applications. This operator panel is particularly suitable for project managers and production leaders who require dependable operator panels with rapid availability. Its compatibility with multiple SIMATIC systems and robust communication features make the 6AV3607-1JC30-0AX2 a practical choice for maintaining or upgrading production processes.
