Ask about this product

Manufacturer	Siemens
Catalog number	6es5535-3ma12
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.15 kgs
Signal Level	15 V
Product Type	Module
Supply Voltage	15 V
Network Compatibility	SINEC H1
Application Area	Discrete Manufacturing, Industrial Processes
Dimensions	200 mm x 250 mm x 50 mm
Weight	0.68 kg

Description

The Siemens 6ES5535-3MA12 is a Communication Processor Module designed for the SIMATIC S5 series, specifically the CP 535 model. Operating at a supply voltage of 15 V, it facilitates communication within the SINEC H1 network, ensuring reliable data exchange in industrial automation systems. This module is particularly suited for discrete manufacturing processes, such as assembly lines and automotive production, as well as industrial processes like chemical and pharmaceutical manufacturing. Its robust design and compatibility with the SINEC H1 network make it a valuable component for enhancing communication capabilities in existing SIMATIC S5 setups.
