Manufacturer	Siemens
Catalog number	6es5381-7aa11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.25 kgs
Product Type	Timer/Counter Module
Product Family	SIMATIC S5
Compatibility	S5-110 PLC
Timers/Counters	8
Application Area	Industrial Automation

Description

The Siemens 6ES5381-7AA11 is a Timer/Counter Module designed for the SIMATIC S5-110 PLC system. This module provides eight timers and counters, enabling precise time-based control and counting functions within industrial automation processes. It is part of the Siemens SIMATIC S5 series, known for its reliability and performance in automation applications. The module is compatible with the S5-110 PLC, offering seamless integration and enhanced functionality. Key features include multiple timers and counters, facilitating complex control tasks. The 6ES5381-7AA11 is suitable for various industrial applications requiring accurate timing and counting operations.
