Ask about this product

Manufacturer	Siemens
Catalog number	6es5450-6aa12
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.20 kgs
Digital Outputs	32 outputs
Supply Voltage	24V DC V
Output Current	0.12A
Weight	0.36 kg
Product Type	Digital Output Module
Product Family	SIMATIC S5
Number of Outputs	32 outputs
Output Voltage	24V DC V
Dimensions	30 mm x 200 mm x 250 mm

Description

The Siemens 6ES5450-6AA12 is a digital output module from the SIMATIC S5 series, designed for industrial automation applications. This module features 32 galvanically isolated digital outputs, each capable of handling 24V DC at 0.12A, ensuring reliable performance in demanding environments. Its rugged construction makes it suitable for harsh industrial conditions, providing a dependable solution for controlling automation processes. Despite its discontinuation and the end of its support lifecycle on August 1, 2007, it remains a valuable component for legacy systems requiring robust digital output solutions. The module's repairability offers significant benefits, allowing for extended usability and cost-effective maintenance of operational systems.
