Manufacturer	Siemens
Catalog number	6es54707lb11
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.27 kgs kg
Number of Analog Outputs	8 outputs
Voltage Range	±10 V
Dimensions	43 x 303 x 187 mm
Weight	400 g
Product Type	Analog Output Module

Description

The Siemens 6ES5470-7LB11 is an analog output module from the SIMATIC S5 series, designed for the S5-115U programmable controller. It features eight floating analog outputs, each capable of delivering a voltage range of ±10 V, facilitating precise control in industrial automation applications. The module's compact dimensions of 43 x 303 x 187 mm and weight of 400 grams make it suitable for integration into space-constrained environments. As a spare part, it ensures the continued operation and maintenance of existing SIMATIC S5 systems, providing reliable performance for various industrial processes.
