Manufacturer	Siemens
Catalog number	6es5456-6aa11
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Digital Output Module
Brand	Siemens
Part Number	6ES5456-6AA11
Number of Outputs	16 outputs
Output Voltage	115/230 V AC
Output Current	1 A
Compatibility	S5-115U PLC

Description

The Siemens 6ES5456-6AA11 is a digital output module designed for the SIMATIC S5-115U PLC system. It features 16 isolated digital outputs, each capable of handling 1 A at 115/230 V AC, making it suitable for various industrial automation applications. This module is part of Siemens' renowned SIMATIC S5 series, known for its reliability and performance in automation tasks. The 6ES5456-6AA11 is a refurbished unit, offering a cost-effective solution for extending the operational life of existing systems. It is compatible with the S5-115U PLC, ensuring seamless integration into existing setups. This module is ideal for applications requiring robust and isolated digital outputs, such as controlling actuators or interfacing with other industrial equipment. Its design ensures reliable performance in demanding environments, contributing to the overall efficiency and longevity of automation systems.
