Manufacturer	Siemens
Catalog number	6es5324-3ua12
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.20 kgs
Product Type	Interface Module
Dimensions	160 x 233.4 mm
Weight	300 g
Power Consumption	1 A
Discontinued Status	Discontinued

Description

The Siemens 6ES5324-3UA12 is an Interface Module (IM 324) designed for the SIMATIC S5 series, specifically facilitating the coupling of central devices for the S5-150H and S5-115F programmable logic controllers (PLCs). Manufactured by Siemens, this module ensures seamless communication between central processing units (CPUs) within the S5-150H and S5-115F PLC systems, enhancing their integration and operational efficiency. Key features include a maximum power consumption of 1 A, dimensions of 160 x 233.4 mm, and a weight of approximately 300 g. This module is suitable for various industrial automation applications requiring reliable and efficient communication between PLC components. Please note that the 6ES5324-3UA12 has been discontinued and reached the end of its lifecycle on October 1, 2022. However, it remains repairable, offering a cost-effective solution for extending the usability of existing systems. For repair services, please contact authorized service providers.
