Manufacturer	Siemens
Catalog number	6es5312-3ab12
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.36 kgs
Product Type	Interface Module
Product Family	SIMATIC S5
Cable Length	0.5 m meters
Discontinued Status	Discontinued
Repair Services	Available

Description

The Siemens 6ES5312-3AB12 is an Interface Module (IM) from the SIMATIC S5 series, designed for the centralized connection of extended devices (ED) to central devices (CC) or other extended devices. This compact module facilitates efficient communication within industrial automation systems, ensuring reliable data exchange between connected components. It features a 0.5-meter connection cable, allowing flexible installation options. The module's design positions the extended device above the central device, optimizing space utilization in control cabinets. As of October 1, 2022, this product has been discontinued, marking the end of its lifecycle. However, repair services are available to extend its operational life, providing a cost-effective solution for maintaining existing systems. The 6ES5312-3AB12 is suitable for applications requiring robust and reliable communication between central and extended devices in industrial automation settings.
