Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Manufacturer	Siemens
Part Number	6ES5340-3KA11
Product Type	Memory Module
Product Family	SIMATIC S5
Memory Size	8 kilobytes KB
Category	Podzespoły automatyki przemysłowej

Description

The Siemens 6ES5340-3KA11 is a memory module designed for the SIMATIC S5 series programmable logic controllers (PLCs). This compact version module offers 8 kilobytes of memory, providing essential storage capabilities for various industrial automation applications. As part of the SIMATIC S5 family, it ensures compatibility and reliable performance within existing S5 PLC systems. This module is particularly suitable for applications requiring stable memory performance in legacy systems. Please note that the 6ES5340-3KA11 has been discontinued by the manufacturer, and availability may be limited. For those maintaining or upgrading existing SIMATIC S5 systems, this module remains a valuable component to ensure continued operation and performance.
