Ask about this product

Manufacturer	Siemens
Catalog number	6es5477-8ec11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	2.06 kgs
Product Type	Module
Component Specifications	et100u
Compatibility	S5-95U, S5-100U, ET 100U, ET 200U
Output Current Range	+4 to 20 mA
Hazardous Environment Compliance	EX, EEX I
Discontinued Status	Discontinued by manufacturer
Discontinued	Yes
Repairable	Yes

Description

The Siemens 6ES5477-8EC11 is an EX Analog Output Module designed for the SIMATIC S5 series, specifically compatible with S5-95U, S5-100U, ET 100U, and ET 200U systems. This module features two analog outputs with a current range of +4 to 20 mA, ensuring precise and reliable analog signal control. It is engineered for hazardous environments, meeting EX (Explosion-proof) and EEX I (intrinsically safe) standards, making it suitable for applications requiring high safety standards. The module is discontinued by the manufacturer but remains a valuable component for maintaining legacy systems. Its robust design and compatibility with various SIMATIC S5 configurations make it a reliable choice for industrial automation applications. For those seeking to extend the life of their existing systems, refurbished units are available, offering a cost-effective solution without compromising on performance. When considering the 6ES5477-8EC11, it's essential to ensure compatibility with your specific system configuration and to consult with qualified professionals for
