Description

The Siemens 6AV3530-1RR01 is an Operator Panel from the OP30 series, designed for efficient control and visualization in industrial environments. It features a character graphics display with mineral glass, ensuring durability and clarity. This model does not include a direct keypad, offering a streamlined interface suitable for integration with external controls. The panel is compatible with a wide range of automation systems, supporting flexible deployment in various applications. Its robust build and high-quality components make it a dependable choice for continuous operation in production lines.
