Manufacturer	Siemens
Catalog number	6es7405-0ra00-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	1.12 kgs
Voltage	24 V
Current	20 A
Relay Specifications	20 A
Industrial System	s7-400
Signal Type	24
Signal Level	24 V

Description

The Siemens 6ES7405-0RA00-0AA0 is a power supply module designed for the SIMATIC S7-400 series programmable controllers. It provides a stable 5 V DC output at 20 A and a 24 V DC output at 1 A, ensuring reliable power distribution for industrial automation systems. This module is engineered to operate within a wide input voltage range of 19.2 to 72 V DC, accommodating various industrial power environments. Its compact dimensions of 75 x 290 x 217 mm and weight of 2.2 kg make it suitable for integration into standard S7-400 racks. The PS 405 module is equipped with essential monitoring and control features, including LEDs for status indication and a failure message reset button, facilitating efficient system management. Designed for durability and efficiency, the 6ES7405-0RA00-0AA0 ensures that your PLC system remains stable and operational under demanding conditions. Please note that this model has been discontinued, with its lifecycle ending on October 1, 2014. For continued support, consider the successor model 6ES7405-0RA02-0AA0.
