Manufacturer	Siemens
Catalog number	6av1202-0ba00
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.02 kgs
Memory Capacity	256 kB
Compatible CPU	CP527
Dimensions	100 x 80 x 30 mm
Weight	0.06 kg
Product Type	RAM Memory Module

Description

The Siemens 6AV1202-0BA00 is a 256 kB RAM memory module designed for the SIMATIC S5 series, specifically for the CP527 central processing unit. This module enhances the processing capabilities of the CP527, enabling efficient data handling and storage for complex automation tasks. Its compact dimensions of 100 mm in width, 80 mm in depth, and 30 mm in height make it suitable for integration into various industrial automation systems where space is a consideration. With a weight of 0.06 kg, it is lightweight and easy to handle during installation or maintenance. This module is ideal for applications requiring reliable and efficient memory expansion in Siemens SIMATIC S5 systems.
