Manufacturer	Siemens
Catalog number	6es5432-4ua11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.10 kgs
Product Type	Digital Input Module
Number of Inputs	32 inputs
Input Type	Floating
Supply Voltage	24V DC V
Product Status	Discontinued

Description

The Siemens 6ES5432-4UA11 is a digital input module designed for the SIMATIC S5 series, offering 32 floating digital inputs operating at 24V DC. This module is engineered for precise signal processing in industrial automation systems, ensuring reliable performance in demanding environments. Its compact design facilitates seamless integration into existing SIMATIC S5 setups, providing an efficient interface for monitoring and controlling input signals. Please note that this product has been discontinued since October 1, 1999, and is no longer in production. For detailed specifications and support, refer to the official Siemens Industry Mall page.
