| **Status** | Active product |

## Technical specification

| | |
|---|---|
| **Weight** | 10.29 kgs |
| **Voltage** | 510 - 650 V |
| **Product Type** | Inverter |
| **Signal Type** | 650 |
| **Signal Level** | 650 V |
| **Current** | 34 A |
| **Power** | 15 kW |
| **Cooling Capacity** | 15 kW |

## Description

The Siemens 6SE7023-4TC71 is a compact inverter from the MICROMASTER Vector series, designed for efficient motion control in industrial applications. This model operates with a DC input voltage range of 510V to 650V and delivers a nominal power output of 15 kW. It is engineered to handle a continuous output current of 34 A, making it suitable for demanding drive applications. The inverter's dimensions are 149 mm in width, 184 mm in height, and 172 mm in depth, with a weight of approximately 2.6 kg. Its robust design ensures reliable performance in various industrial settings, providing precise control and energy efficiency.
