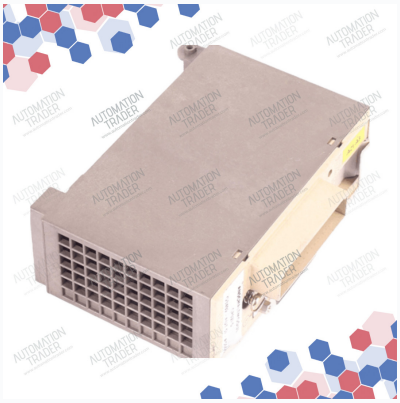
Ask about this product



Manufacturer	Siemens
Catalog number	6es5521-8ma11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.14 kgs
Viscosity	5 CP
Manufacturer	Siemens
Product Type	Communication Processor Module
Module Type	CP 521
Application Area	SIMATIC S5 Automation System
Discontinued	October 1, 2005
Repairable	Yes
Dimensions	110 mm x 135 mm x 45 mm
Weight	0.28 kg

Description

The Siemens 6ES5521-8MA11 is a Communication Processor Module designed for the SIMATIC S5 automation system, specifically the CP 521 model. This module facilitates seamless communication between the SIMATIC S5 PLC and printers, enabling efficient data exchange and process documentation. It is particularly useful in industrial environments where reliable and continuous data logging is essential. The CP 521 module supports unidirectional and bidirectional data exchange, accommodating various communication protocols to ensure compatibility with a wide range of devices. Its robust design ensures durability and consistent performance in demanding industrial settings. The module is compact, measuring 110 mm in height, 135 mm in length, and 45 mm in width, with a weight of approximately 0.28 kg. This compact form factor allows for easy integration into existing systems
