Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	6AV3971-1NA01-0DA0
Product Type	Memory Submodule
Storage Capacity	64 Kbytes
Firmware Support	AS511, FAP, L1

Description

The Siemens 6AV3971-1NA01-0DA0 is a memory submodule designed for the OP20 operator panel within the SIMATIC HMI series. This module offers 64 Kbytes of storage capacity and is equipped with firmware supporting AS511, FAP, and L1 protocols, ensuring efficient data management and seamless integration in industrial automation systems. Its robust construction guarantees reliable operation in demanding environments, making it an essential component for maintaining efficient data management and process control within automated production lines. The compact form factor allows for easy installation and integration into existing systems, facilitating straightforward upgrades and replacements for maintenance teams.
