Product Type	Module
Weight	0.68 kg
Dimensions	80 x 250 x 200 mm
Serial Interface	2nd
Color Display	Yes
Language Support	German, English, French, Russian

Description

The Siemens 6FM1470-3CA25 is a high-quality display module from the 6FM1470 series, designed to enhance user interaction with industrial automation systems. This module features a color display, providing clear and vibrant visuals essential for monitoring and control tasks. It includes three slots for memory modules and a second serial interface, facilitating enhanced connectivity and storage capacity. Additionally, the module supports multiple languages, including German, English, French, and Russian, making it versatile for use in diverse geographical locations. The robust build quality typical of Siemens products ensures long-lasting operation and enhanced user experience. The 6FM1470-3CA25 is repairable, offering a cost-effective alternative to replacement and extending its operational lifespan. This makes it a viable option for users looking to maximize their existing investments without transitioning to newer models immediately.
