Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.20 kgs
Height	200 mm
Length	250 mm
Weight	0.42 kg
Width	30 mm
Connection Ports	3 ports
LED Indicators	Yes
Discontinued Date	1993-03-01

Description

The Siemens 6ES5254-4UB21 is a PLC interface module designed for the SIMATIC S5 series, facilitating seamless communication within industrial automation systems. This module features three connection ports and LED indicators, ensuring efficient monitoring and operation. As part of the MOBY-M system, it integrates effectively into existing setups, providing reliable performance. Manufactured by Siemens, this module was discontinued on March 1, 1993, but remains relevant for systems that depend on its functionality. Its repairable design allows for extended usability, maintaining system integrity over time.
