## Technical specification

| | |
|---|---|
| **Brand** | Siemens |
| **Part Number** | 6ES5436-4UB12 |
| **Product Type** | Digital Input Module |
| **Voltage Range** | 115/230V AC V |
| **Number of Inputs** | 8 inputs |

## Description

The Siemens 6ES5436-4UB12 is a digital input module from the SIMATIC S5 series, designed for industrial automation systems. This module features 8 isolated digital inputs, each capable of handling a voltage range of 115/230V AC, making it suitable for various high-voltage applications. Manufactured in Germany, it adheres to Siemens' stringent quality standards, ensuring reliable performance in demanding industrial environments. The compact design facilitates easy integration into existing systems, and its robust construction ensures longevity and consistent operation. This module is ideal for applications requiring reliable digital input processing in industrial settings.
