Ask about this product

Manufacturer	Siemens
Catalog number	6es5581-3la11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.84 kgs
Product Type	Module
Memory/Storage	520 MB
Product Series	SIMATIC S5
Brand	Siemens
Product Family	SIMATIC S5-135/155
Dimensions	210 x 260 x 30 mm
Weight	1.00 kg

Description

The Siemens 6ES5-581-3LA11 is a mass storage module designed for the SIMATIC S5 series programmable logic controllers (PLCs), specifically the CP 581/486 model. This module features a 520 MB hard disk, providing substantial storage capacity for industrial automation applications. It is engineered to manage extensive data storage needs efficiently, ensuring reliable operation in various industrial environments. The 6ES5-581-3LA11 is recognized for its durability and performance, making it a valuable component in automation systems that require robust data storage solutions. Despite being discontinued, it remains repairable, offering a cost-effective option for extending the lifespan of existing systems. Users can opt for repair services to maintain operational continuity without the immediate need for complete system overhauls. This approach allows for gradual adaptation to future technological advancements while preserving the integrity of current setups.
