Category	Podzespoły automatyki przemysłowej

Description

The Siemens 6ES5318-8MA11 is an interface module from the SIMATIC S5 series, designed for industrial automation applications. This module features the CC 318 interface for the ET 100U system, equipped with a cable connector for seamless integration. It operates at a signal level of 24V and has a weight of 0.45 kg. Originally discontinued on October 1, 1999, the 6ES5318-8MA11 remains integral to legacy systems, offering reliable performance in established setups. For organizations seeking to maintain operational continuity, repair services are available to extend the module's usability.
