Ask about this product

Manufacturer	Siemens
Catalog number	6es5580-0ua12
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	3.01 kgs
Weight	1.00 kg
Main Memory	4 MB
Coprocessor	None
Discontinued	Yes
Memory Size	4 MB
Processor	Without Coprocessor
Discontinuation Date	July 1, 2005 date
Repairability	Repairable

Description

The Siemens 6ES5-580-0UA12 is a programmable logic controller (PLC) from the SIMATIC S5 series, specifically the CP 580 model. It features 4 megabytes of main memory but lacks a coprocessor. This discontinued product once played a critical role in industrial automation, providing reliable performance for various control tasks. Although Siemens has phased out its lifecycle support as of July 1, 2005, it remains in use in some legacy systems due to its robust design and functionality. Despite being discontinued, the 6ES5-580-0UA12 is still repairable. Opting for repairs over replacement can significantly extend the product's usability, making it a viable option for maintaining existing systems.
