Manufacturer	Siemens
Catalog number	6es5436-7lb11
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.75 kgs
Product Type	Digital Input Module
Product Family	SIMATIC S5
Number of Inputs	16 inputs
Input Voltage	230V AC/DC
Input Groups	2 groups of 8
Manufacturing Country	Germany

Description

The Siemens 6ES5436-7LB11 is a digital input module from the SIMATIC S5 series, designed for the S5-115U PLC system. It features 16 isolated digital inputs, each operating at 230V AC/DC, organized into two groups of eight for enhanced functionality and reliability. Manufactured in Germany, this module is known for its robust design and integration capabilities, ensuring dependable performance in various industrial automation applications. Despite its end-of-life status as of October 1, 2022, the 6ES5436-7LB11 remains a repairable unit, offering a cost-effective solution to extend the usability of existing systems. Opting for repairs can significantly offset the need for immediate replacement, maintaining operational continuity and maximizing existing investments in the SIMATIC S5 system.
