Manufacturer	Siemens
Catalog number	6es7456-4ey00-0ae0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	1.09 kgs
Processor	Intel 80486
Processor Speed	75 MHz
Communication Interface	MPI
Dimensions	50 x 290 x 210 mm
Weight	1.26 kg

Description

The Siemens 6ES7456-4EY00-0AE0 is an Application Module from the SIMATIC M7-400 series, designed to enhance the functionality of Siemens' automation systems. This module features an Intel 80486 processor running at 75 MHz, ensuring efficient processing capabilities for complex automation tasks. It supports the Multi-Point Interface (MPI) for seamless communication within the automation network. The module is housed in a compact form factor, measuring approximately 50 mm in width, 290 mm in height, and 210 mm in depth, with a weight of around 1.26 kg. This design allows for easy integration into existing systems without occupying excessive space. The 6ES7456-4EY00-0AE0 is engineered for reliability and performance, making it a valuable component for industrial automation applications that require robust processing power and efficient communication within the Siemens automation ecosystem.
