Manufacturer	Siemens
Catalog number	6es5470-4ua11
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.34 kgs
Product Type	Analog Output Module
Voltage Range	±10 V
Current Range	0 to 20 mA
Number of Outputs	8
Compatibility	Siemens S5 PLCs

Description

The Siemens 6ES5-470-4UA11 is an analog output module designed for the SIMATIC S5 series programmable logic controllers (PLCs). This module features eight outputs capable of delivering both voltage and current signals, with a voltage range of ±10 V and a current range of 0 to 20 mA. It is engineered for precise control and monitoring in industrial automation applications, ensuring reliable performance in demanding environments. The module is recognized for its robust design and compatibility with existing Siemens S5 PLC systems, making it a valuable component for maintaining and upgrading automation processes. Please note that this product has been discontinued and is available solely as a spare part.
