Manufacturer	Siemens
Catalog number	6es7478-2da01-0ac0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.10 kgs
Product Type	Interface Module
Dimensions	230 mm x 290 mm x 50 mm
Weight	0.72 kg
Product Family	Simatic S7-400, Simatic M7-400
Application Area	Industrial Automation Systems

Description

The Siemens 6ES7478-2DA01-0AC0 is a high-performance interface module from the TPM 478-1 series, designed to facilitate seamless communication between the CS275 Local Bus and TELEPERM M process peripherals. This module is integral to the Siemens Simatic S7-400 and M7-400 programmable controller systems, ensuring efficient data exchange and system integration. Key features include dual I/O bus interfaces for TELEPERM M basic and expansion cabinets, and an I/O bus logic supply with a +5 V bus, enhancing system reliability and performance. The module's compact dimensions (230 mm x 290 mm x 50 mm) and lightweight design (0.72 kg) make it suitable for various industrial applications where space and weight considerations are critical. Its robust construction and advanced functionality make it a valuable component for complex automation systems requiring high-speed data processing and reliable communication between system components.
