Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.24 kgs
Dimensions	115 x 150 x 38 mm
Supply Voltage	5 V, ±5%
Weight	0.56 kg
Product Type	Bus Terminal Module
Network Type	SINEC L1 Local Area Network

Description

The Siemens 6ES5777-0BC00 is a Bus Terminal module from the SIMATIC S5 series, designed for integration with PLC modules. It facilitates communication over distances up to 2.5 km and is supplied with a 2-meter cable. This module is intended for use with the SINEC L1 Local Area Network, providing reliable network control capabilities. Originally introduced for its robust networking features, the 6ES5777-0BC00 is now available as a spare part, suitable for extending the operational life of existing systems. Please note that this product has been discontinued and reached the end of its lifecycle on October 1, 2002, implying that it no longer benefits from PLM and support services. Despite its phase-out status, the 6ES5777-0BC00 remains repairable, offering significant advantages over outright replacement. Repairing this unit can extend its usability, making it a viable option for continuing operations without investing in new infrastructure.
