Ask about this product

Manufacturer	Siemens
Catalog number	6es5244-3aa22
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.18 kgs
Product Type	Temperature Control Module
Product Series	SIMATIC S5
Successor Part Number	6ES5244-3AB31
Dimensions	27 cm x 8 cm x 40 cm
Weight	0.18 kg

Description

The Siemens 6ES5244-3AA22 is a temperature control module designed for the SIMATIC S5 automation system. This module offers self-optimized temperature management with start and stop functionality, making it suitable for precise process environments where maintaining consistent thermal conditions is essential. The 6ES5244-3AA22 integrates seamlessly into existing production lines and supports reliable performance under demanding industrial conditions. Constructed with durable industrial-grade materials, the 6ES5244-3AA22 is built for long-term operation within PLC-controlled systems. The module is easy to install, and its self-optimizing functionality requires minimal manual adjustment. Designed for project managers and production leaders, the Siemens 6ES5244-3AA22 supports uninterrupted manufacturing processes and reliable integration into SIMATIC S5-based systems.
