Ask about this product

Manufacturer	Siemens
Catalog number	6es5581-2la11
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.29 kgs
Storage Capacity	270 MB
Compatible PLCs	S5-135U, S5-155U/H models
Product Type	Mass Storage Module
Product Series	SIMATIC S5 series
Brand	Siemens brand

Description

The Siemens 6ES5-581-2LA11 is a Mass Storage Module from the SIMATIC S5 series, designed to provide reliable data storage solutions for industrial automation systems. This module features a 270 MB capacity, ensuring efficient handling of large datasets and complex processes. It is compatible with Siemens S5-135U and S5-155U/H PLCs, offering seamless integration within existing automation setups. The module's robust construction and high-quality components guarantee durability and consistent performance in demanding industrial environments. Ideal for applications requiring substantial data storage and retrieval capabilities, the 6ES5-581-2LA11 supports the efficient operation of automation systems, contributing to enhanced productivity and operational reliability.
