Manufacturer	Siemens
Catalog number	6gk1105-0aa00
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.58 kgs
Voltage	DC
Product Type	Switch
Signal Type	24
Signal Level	24 V
Interface Type	ethernet

Description

The Siemens 6GK1105-0AA00 is an Industrial Ethernet Optical Switch Module (OSM) designed for robust communication in industrial environments. This module features two fiber optic ports operating at 100 Mbit/s and four ITP ports at 10 Mbit/s, ensuring high-speed data transfer and reliable connectivity. It is equipped with a redundant 24V DC power supply and an integrated signaling contact, enhancing operational reliability. Manufactured by Siemens, a leader in industrial automation, this module is suitable for various applications within the SIMATIC NET range. Please note that this product is classified as obsolete, effective since 2010, and is intended for use in systems where legacy compatibility is essential.
