Repair Services Available	Yes

Description

The Siemens 6DS1212-8AB is a Bus Interface Module designed for seamless integration with the Siemens Teleperm M system. Manufactured in Germany, this module facilitates efficient data communication within industrial automation systems. It serves as a bus interface for the bus converter unit UI 6DS4400-8AB, ensuring reliable connectivity and control. The module is part of the Teleperm M series, known for its robust performance in industrial applications. Please note that this product has been discontinued as of December 31, 2020, and is no longer supported by Siemens. For legacy systems, repair services are available to maintain operational efficiency.
