Manufacturer	Siemens
Catalog number	6gk1543-0aa00
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.43 kgs
Product Type	Communication Processor Module
Dimensions	30 x 250 x 200 mm
Weight	0.43 kg
Interfaces	1 x PG, 1 x SINEC L2
Compatibility	SIMATIC S5 Modules

Description

The Siemens 6GK1543-0AA00 is a Communication Processor Module designed for the SIMATIC S5 series, facilitating seamless communication within industrial automation systems. This module features one PG (Programming) interface and one SINEC L2 interface, enabling efficient data exchange between devices. It is specifically engineered for integration with SIMATIC S5 modules, ensuring compatibility and optimal performance. The module's compact dimensions of 30 mm in height, 250 mm in width, and 200 mm in depth make it suitable for various industrial applications where space is a consideration. With a weight of approximately 0.43 kg, it offers a lightweight solution without compromising on functionality. The 6GK1543-0AA00 is part of Siemens' SINEC range, known for its reliable communication solutions in industrial settings. This module is ideal for applications requiring robust and efficient communication within the SIMATIC S5 environment.
